

Immediate Job Opening for WWC Engineering

Title: Land Surveyor Technician

Location: Western North Dakota (Actual location negotiable upon hire)

Job Description and Responsibilities: WWC Engineering is accepting applications for a surveying technician in western North Dakota. The candidate must have 5+ years of surveying experience with a focus in the oil and gas industry. The surveying technician will work under the direct supervision of licensed engineers and surveyors. Typical duties would entail performing boundary surveys, ROW surveys, staking of oil & gas well locations, and plat preparation. Business development and marketing skills is a bonus. The successful candidate must be proficient with Trimble survey equipment and Trimble Business Center; possess strong communication and problem-solving skills; be able to work independently; exhibit a high attention to detail; and work efficiently in a team environment. Special consideration will be given for experience with AutoCAD Civil 3D. The candidate will be responsible for performing surveying activities in western North Dakota. Travel is required and the candidate must have a valid driver's license.

Company Information: WWC Engineering is a mid-size, multi-disciplinary employee owned engineering firm that has been serving the Rocky Mountain region since 1980. Our culture is one of unity, collaboration and respect which affords a great work atmosphere and a community that strives for maintaining a healthy work-life balance. WWC's major service sectors include Civil/Site, Environmental, Land Development, Mining, Municipal, Oil & Gas, Planning, Roads/Bridges, Surveying, Water/Wastewater and Water Resources Services. As a preferred employer, WWC offers one of the most competitive salary and benefit packages available in a fun and rewarding work environment.

Our personnel receive a competitive salary that also includes paid overtime. Benefits include health, dental and vision insurance, with the option for dependent coverage. We also provide life and disability insurance. The company provides a 401k profit sharing plan, with a company match of 50% of the employee's contribution up to a 10% maximum. We also offer paid holidays, vacation, sick leave, compensation time, relocation expenses and continued education opportunities.

Salary: \$55,000 - \$75,000 depending on experience

Job Closing Date: 8/31/2018
